KSK Rubber Dam Clamps

Features

- KSK Rubber Dam Clamps are made of specially selected and tempered stainless steel.
- Ideal spring action and high resistance against the corrosion.
- Various forms are available, so you can choose clamps in accordance with the teeth.
- 4000 times open-close metal fatigue test goes for every production lot to assure long-term spring action.
- For stable forms, our craftsmen adjust bending every KSK clamps one by one manually.
- All beaks are sharpened for best fitting on the teeth.
- "MATT" and "BLACK" can avoid eye fatigue of dentists from reflecting operation light.

Finishing

GLOSSY
Glossy finishing.

MATT
Sand blasted non glossy finishing.

BLACK
Not painted, Oxide layer finishing which is safe for human body

Winged or Wingless

WINGED

WINGLESS

[Important Safety Instructions]

It is likely to transform and to break when force is excessively added. Please do not expand rubber dam clamps more than the necessity.

Molar Clamps

Product Code

- Glossy
- Matt
- Black

3

- 01012003
- 01014003
- 01019003

For small lower molars with flat beaks.

W3

- 01012903
- 01014903
- 01019903

For small lower molars with flat beaks. Similar to 3 but wingless.

4

- 01012004
- 01014004
- 01019004

For upper molars with festooned beaks.

5

- 01012005
- 01014005
- 01019005

For upper molars with festooned beaks.

7

- 01012007
- 01014007
- 01019007

For big lower molars with flat beaks.

7A

- 01012907
- 01014907
- 01019907

For big lower molars with flat beaks.

8

- 01012008
- 01014008
- 01019008

For big upper molars with festooned beaks. Same size as 7.

8A

- 01012908
- 01014908
- 01019908

For upper molars with deeply festooned beaks which can grab subgingival part.

Molar Clamps

Product Code

- Glossy
- Matt
- Black

W8A

- 01012998
- 01014998
- 01019998

Similar to 8A but wingless.

12A

- 01012912
- 01014912
- 01019912

Especially for the third upper left and lower right molars with flat serrated beaks, paired with 13A.

13A

- 01012913
- 01014913
- 01019913

Especially for the third lower left and upper right molars with flat serrated beaks, paired with 12A.

14

- 01012014
- 01014014
- 01019014

For partially erupted molars with deeply festooned beaks.

14A

- 01012914
- 01014914
- 01019914

For partially erupted molars with deeply festooned beaks, bigger than 14.

15

- 01012015
- 01014015
- 01019015

For big lower molars with flat and longer beaks, a strong spring.

18

- 01012018
- 01014018
- 01019018

For upper & lower molars with flat beak.

24

- 01012024
- 01014024
- 01019024

For upper left and lower right buccal molars' subgingival cavities. The buccal side has wider fringe slightly festooned beaks. Paired with 25.

25

- 01012025
- 01014025
- 01019025

For lower left and upper right buccal molars' subgingival cavities. The buccal side has wider fringe slightly festooned beaks. Paired with 24.

Molar Clamps

Product Code

- Glossy
- Matt
- Black

26

- 01012026
- 01014026
- 01019026

For upper molars in case of exposure of the tooth neck with slightly festooned beaks. Available for the second bicuspid.

28

- 01012028
- 01014028
- 01019028

For upper and lower molars with flat beaks, wide view.

30

- 01012030
- 01014030
- 01019030

For lower left molar subgingival with slightly festooned beaks. The projection on the buccal beak slips into the furcation. Paired with 31.

31

- 01012031
- 01014031
- 01019031

For lower right molar subgingival with slightly festooned beaks. The projection on the buccal beak slips into the furcation. Paired with 30.

42

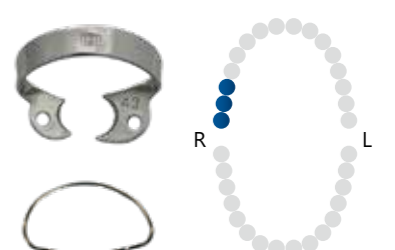

- 01012042
- 01014042
- 01019042

For upper left molars with flat beaks, paired with 43.

43

- 01012043
- 01014043
- 01019043

For upper right molars with flat beaks, paired with 42.

51

- 01012051
- 01014051
- 01019051

For buccolabial molar furcations with slightly festooned beaks. Enables to press down the gingiva.

56

- 01012056
- 01014056
- 01019056

For lower molars with with festooned beaks.

56A

- 01012956
- 01014956
- 01019956

For big lower molars with very slightly festooned beaks. One size larger than 56.

- 01014506
- 01019506

For partially erupted molars with serrated deeply festooned beaks.

56T

- 01012507
- 01014507
- 01019507

For lower molars with festooned beaks.

Dental Dams

Dental Dams (Powder-Free)

Features

- KSK dental dams have a good resistance and elastic property.
- Pure natural rubber.
- "Thin" is made of color free material then capable for monitoring the condition of an patient during isolation treatment.

[Specification]

Packaging : 36 sheets / pack Size : 6" x 6" (152mm x 152mm)
 Thickness : apx 0.20mm(Medium), apx 0.18mm(Thin)
 Color : Green(Medium), Ivory(Thin)
 Scent : Non

Product Code **01023060**
 Product **KSK Dental Dam Medium (cut)6"x6"**

Product Code **01023070**
 Product **KSK Dental Dam Thin (cut)6"x6"**

Dental Dam Non-Latex

Features

- Used when there is a concern regarding an individual's possible allergic reaction to the proteins present in natural rubber.

[Specification]

Packaging : 20 sheets / pack Size : 6" x 6" (152mm x 152mm)
 Thickness : 0.20mm Color : Blue Scent : Non

Product Code **01023040**
 Product **KSK Dental Dam (cut)6"x6" Non-Latex**

Dental Dam Non-Latex Powder-Free

Features

- Powder-free minimizes the risk of illness or injury caused by allergy for all dental health care personnel and patients.

[Specification]

Packaging : 15 sheets / pack Size : 6" x 6"(152mm x 152mm)
 Thickness : 0.25mm Color : Purple Scent : Mint

Product Code **01023050**
 Product **KSK Dental Dam (cut)6" x 6" Non-Latex Powder-Free**

Rubber Dam Accessories

KSK Rubber Dam Punch

[Specification]
 Material : Stainless steel
 Size : 153 x 70mm
 Type : Ainsworth type.
 Hole diameter : 1.4mm , 1.6mm , 1.8mm , 2.1mm , 2.3mm

Product Code 01021011
 Product KSK Rubber Dam Punch

KSK Rubber Dam Clamp Forceps

Features

Original design of DENTECH Rubber Dam Clamps are automatically off from the forceps at the place of operator fits them on tooth.

[Specification]
 Material : Stainless steel
 Size : 165 x 70mm

Product Code 01031040
 Product KSK Rubber Dam Clamp Forceps

Rubber Dam Frames Young Type

[Specification]
 Material : Stainless steel
 Adult : 108(w) x 95mm(h)
 Pado : 77(w) x 73mm(h)

Product Code 01022010
 Product Rubber Dam Frame, Adult
 Product Code 01022020
 Product Rubber Dam Frame, Pado

Rubber Dam Template

Features

For marking punch holes.

[Specification]
 Material : Plastic
 Size : 150 x 150mm

Product Code 08190020
 Product Rubber Dam Template

Clamp set

Clamp set No.8

[Specification]
 Material : Stainless steel Size : 90 x 90mm
 With 8 clamps : #9 x 2, 2A, W2A, 5, 56, 203 & 204 or Clamp Organizer (Board only)

Product Code 01041000 Product Clamp Organizer
 Product Code 01040000 Product Glossy
 Product Code 01040080 Product Matt
 Product Code 01040050 Product Black

Clamp set No.12

[Specification]
 Material : Stainless steel Size : 150 x 90mm
 With 12 clamps : #210, 9, 0, 2, 2A, 206, 207, 5, 56, 7, 201 & 202 or Clamp Organizer (Board only)

Product Code 01041010 Product Clamp Organizer
 Product Code 01040010 Product Glossy
 Product Code 01040090 Product Matt
 Product Code 01040060 Product Black

Clamp set No.18

[Specification]
 Material : Stainless steel Size : 160 x 120mm
 With 18 clamps : #210, 9, P-1, P-2, 22, 27, 29, 208, 209, 18, 138, 139, 7, 201, 202, 203, 204 & 205 or Clamp Organizer (Board only)

Finger Ruler

Description

Can be attached on finger by free size. The adjustable stopper keeps it's position by spring.

[Specification]

Material : Stainless steel Measurement length : 32mm

Product Code **03050000**

Product **Finger Ruler**

X-Ray Mesh Gauge

Description

Suitable for root canal treatment. Accurate examination before placing an implant. checking of calculus quantity and its area.

[Specification]

Cover Material : Polyester Mesh Line Material : Stainless steel

Dental Size

Size : 40 x 30mm Fine Grid : pitch 1mm Wide Grid : pitch 5mm

Product Code **07050010**

Product **X-Ray Mesh Gauge, Dental**

Resin Post Methacrylics

Description

You use the core build upon by the indirect method. It disappears, becomes gas when casting. For the post of the same size and RTP reamer, post selection is easy.

[Specification]

Fine plastic burn - out posts.

Indirect only

Product Code **05000050**

Product **Resin Post Methacrylic #R1 (set of 50 pcs)**

Product Code **05000051**

Product **Resin Post Methacrylic #R2 (set of 50 pcs)**

Product Code **05000052**

Product **Resin Post Methacrylic #R3 (set of 50 pcs)**

#R1(Blue)

#R2(Yellow)

#R3(Red)

Retro Filling Retractor

Description

For reverse root canal treatment, Autoclavable

[Specification]

Material : Stainless steel Measurement length : 176mm

Product Code **30600600**

Product **Retro Filling Retractor #1**

MTA Carrier

Description

- Thin and long pipe suck up MTA and delivers into narrow and deep root canal.
- Delicate Tip is designed to be replaced in case of damaged.
- The handle is made of aluminum, light and making it easy to work with.

[Specification]

Overall length : 140mm

Material : (Carrier Parts) Stainless, (Handle Parts) Aluminum

MTA Carrier Spare Parts (Pipe Extrude Bar 1pc each)

Product Code **01060003**

Product **MTA carrier**

Product Code **01060013**

Product **MTA carrier Spare Parts**

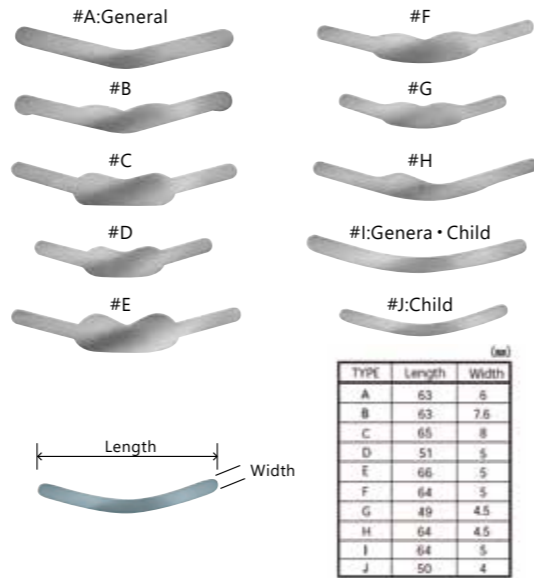

Matrix Bands

Matrix Bands

[Specification]
Material : Stainless Steel Thickness : 0.04mm

- Product Code 04021101 Product Matrix Bands #A (set of 100 pcs)
- Product Code 04021102 Product Matrix Bands #B (set of 100 pcs)
- Product Code 04021103 Product Matrix Bands #C (set of 10 pcs)
- Product Code 04021104 Product Matrix Bands #D (set of 10 pcs)
- Product Code 04021105 Product Matrix Bands #E (set of 10 pcs)
- Product Code 04021106 Product Matrix Bands #F (set of 10 pcs)
- Product Code 04021107 Product Matrix Bands #G (set of 10 pcs)
- Product Code 04021108 Product Matrix Bands #H (set of 10 pcs)
- Product Code 04021109 Product Matrix Bands #I (set of 100 pcs)
- Product Code 04021110 Product Matrix Bands #J (set of 100 pcs)

T Bands

Description
Can be used without the Matrix Retainer.

[Specification]
Material : Stainless Steel Thickness : 0.04mm

- Product Code 04023111 Product T Bands, Large (set of 100 pcs)
- Product Code 04023112 Product T Bands, Small (set of 100 pcs)

Matrix Retainer #9-T Tofflemire

Description
By a screw that has been improved, it will be a fine movement smooth.

[Specification]
Material : Stainless Steel Size : 64mm

- Product Code 04019200
- Product Matrix Retainers Tofflemier Type, Universal Adult, 9-T

Tooth Contact Gauges

Description
For checking interdental contact points.
In three colour coded thicknesses.

[Specification]
Material : Stainless Steel
Holder size: 130 x 22 mm
Thickness: Blue 0.05 mm, Yellow 0.11 mm, Red 0.15 mm
Set: Holder x 1pc, Blue Gauges x 3pcs, Yellow Gauge x 1pc, Red Gauge x 1pc

- Product Code 50050020 Product Tooth Contact Gauge Set
- Product Code 50050021 Product Tooth Contact, Refill Gauge Blue (0.05mm)
- Product Code 50050022 Product Tooth Contact, Refill Gauge Yellow (0.11mm)
- Product Code 50050023 Product Tooth Contact, Refill Gauge Red (0.15mm)

New Inlay & Crown Setters

[Specification]
Material : Stainless steel and silicone rubber
Long handle for molars has short pushing pin (SIZE : 79 x 24mm)
Short handle for bicuspids has long pushing pin (SIZE : 69 x 24mm)

- Product Code 06092300 Product New Inlay & Crown Setter Set
- Product Code 06092310 Product New Inlay & Crown Setter L Set
- Product Code 06092320 Product New Inlay & Crown Setter S Set
- Product Code 50050035 Product New Inlay & Crown Setter, Extra Rubber Pads 2 pcs

※Replacement silicone rubber inserts 2pcs.

Tooth Separators

Elliot's Separator

Description
The pushing screw can be attached both right and left side.
Improved jaw design enable to be stable while pushing by the screw.

[Specification]
Material : Stainless Steel
Size : 37 x 67mm

- Product Code 01071000
- Product Elliot's Separator

Tooth Separators

Ivory's Separator

Description

With improved curved jaw design, thus separators become stable while pushing by the screw. It is applied in the front area of the upper and lower teeth.

[Specification]

Material : Stainless Steel
Size : 37 x 67mm

Product Code 01072000

Product Ivory's Separator

Articulating Paper Holders

Articulating Paper Holder, M-Type

Description

It is made with milled in order not to move articulating paper and designed to be convenient for the operator.

[Specification]

Material : Stainless Steel
Size : 145mm

Product Code 06121000

Product Articulating Paper Holder, M-Type

Articulating Paper Holder, Y-Type

Description

Sure holding of Articulating papers by pins and holes. Ideal to make for full dentures.

[Specification]

Material : Stainless Steel
Size : Large 74 x 60mm Small 66 x 48mm

Product Code 06122000

Product Articulating Paper Holder, Y-Type, Large

Product Code 06122100

Product Articulating Paper Holder, Y-Type, Small

New Fine Lock Trays

Description

"Retention rims" types. Brass, nickel plated. Complete with set of 8 size or individually each size.

Upper					mm

Product New Fine Lock Tray #L14

Dry heat is prohibited

Twist Drills Black

Description

A surgical drill with increased abrasion resistance, corrosion resistance, durability and hardness with DLC coating. It comes with a movable stopper which allows for the length of the drill to be adjusted and a dedicated wrench. The adjustment range for the stopper is between 6 - 11mm for short, and 11 - 16mm for long.

What's DLC?

DLC is short for "Diamond Like Carbon", and it is technology that coats a nano - level hard film with properties that resemble that of diamonds onto metallic surfaces. While having approximately 5 times the hardness compared to existing products, it has shown overwhelming low friction factor and it is recognized as the most technologically advanced among the many surface treatment techniques available.

[Specification]

Twist Drills For Guide

Description

When using the 10mm surgical guide, it is marked to drill depths of 7mm, 8.5mm, 10mm.

[Specification]
Material : Stainless steel

Product Code	30074020	Product	Twist Drill "Black" for guide ϕ 2.0mm
Product Code	30074030	Product	Twist Drill "Black" for guide ϕ 3.0mm

Twist Drills

Twist Drills External Cooling

Description

Our drills are made of stainless steel with high carbon. It assures enough hardness, good cutting efficiency and long life. But rather weak for rust. Careful maintenance will be required to avoid rust and to assure along life.

Good maintenance

- ① Immediately after use, drills should be dipped into anti-rust solution.
- ② Stopper should be removed while cleaning and autoclave.
- ③ Blood and bones should be removed completely after use.
- ④ Use only refined water for autoclave.
- ⑤ Use drill stand while autoclave, do not put into sterilization bag directly.

Twist Drills Internal Cooling

Description

The drills with internal cooling system should be used also with external cooling. Drill speed should be controlled from 600rpm(thick drills) up to 1000rpm(for fine drills).

Cutting efficiency is coming bad by each use and bad drill will cause heat damages against bone. Only good drills should be used for operation. For very hard bones, it is recommended to use surgical burs prior to implant drills. Surgical burs will help easy drilling and long life. The fix screw of drill stopper is so small and it can not be bear a strong force. Drills can be used also without stopper.

Trephine Burs

Description

Trephine Burs do not have blade at center, thus it will be rather difficult to get smooth cutting for a start. Enough exercise is recommended before use. After Trephine Burs penetrate into bone, then smooth cutting is available. To avoid choking on bone inside Trephine Bur, pull of Trephine Burs up and down, so that bone will always remain at patient. Remained bone can be collected by surgical curettes. Enough cooling and possibly low speed is recommended to avoid heat damage against bone.

[Specification]

Technika TK Drill System

Description

Innovative dental drill for implant treatment.
Safe and Secure drill systems
Completed with a minimum 4drills, easy steps
Ultra-low speed rotation, no water injection
Autologous bone guide / Autologous bone collection

[Specification]

- Contents : ① Surgical Bur Round 141RF/018
② Twist Drill Short 2.0S (External Cooling)
③ Technika TK Countersink (3.0, 3.5, 4.0, 4.5, 5.0)
④ Technika TK Drill (φ 3.0, φ 3.5, φ 4.0, φ 4.5, φ 5.0)
⑤ Technika Surgical Cassette *final drill is not included

Product Code 30120000 Product Technika TK Drill System

① Surgical Bur Round 141RF/018
Material : Stainless Steel
Length : 34 mm,
Size : φ1.8mm
Quantity : 1pc

② Twist Drill Short 2.0S (External Cooling)
Material : Stainless Steel
Length : 33 mm,
Size : φ2.0
Quantity : 1pc

⑤ Technika Surgical Cassette
Material : Resin and Silicone
Size : 99.5 mm x 143 mm x 61 mm
Quantity : 1pc

③ Technika TK Countersink
Material : Stainless Steel
Length : 24 mm,
Size : φ3.0, φ3.5, 4.0, 4.5, 5.0
Quantity : 1pc each

④ Technika TK Drill
Material : Stainless Steel
Length : 36 mm,
Size : φ3.0, φ3.5, φ4.0, φ4.5, φ5.0
Quantity : 1pc each

● included drills

Multi-Adapter Wrench

Description

free-swing provides quick implantation.
Conforms to major implant systems.

[Specification]

Material : Stainless steel.

Product Code 30080450 Product Multi-Adapter Wrench
Product Code 30080490 Product Replacement Driver
Product Code 30080500 Product Square Adapter
Product Code 30080550 Product HEX Adapter

Implant Drill Checker

Description

Can be measured diameter of 2.0 - 5.9mm.
Can be measured length of 6.0 - 18.0mm.
With length scale of 5 - 20mm. Can be used for drill stand.

[Specification]

Material : Stainless steel

Product Code 30080012

Product Implant Drill Checker

Para Drill Aid II

Description

- Attachment drill aid for parallel implantation.
- Four guid - pins and three drill - sleeves make surgery better and shorter.
- You can easily make a hole for parallel implantation.
- Pilot drill (dia 1.8 to 2.0mm) is available.
- All parts are autoclavable.

[Specification]

Material : Stainless steel

Product Code 30080200

Product Para Drill Aid II

Drill Extenders

Description

Two types : External cooling/Internal cooling
Extension length : External cooling is 16.5mm,
Internal cooling is 18 mm.

[Specification]

Material : Stainless steel

Product Code 30080001

Product Drill Extension External Cooling

Product Code 30080002

Product Drill Extension Internal Cooling

Technika Bone Mill Set

Description

- Simple and compact
- Easy operating
The angle mount enables easy and smooth operating.
- Easy milling
The unique shaped cutter with DLC coating enable easy and fine milling.
- Easy assembling
The simple structure saves time for operating and cleaning.

Product Code 30080015

Product Technika Bone Mill

Product Code 30080016

Product Replacement Cutter

Drill Extension SHORT External Cooling

Description

Can extend the drill length slightly 5mm.
Easy attaching without tools.

[Specification]

Material : Stainless steel Diameter : 7.7 mm

Product Code 30079991

Product Drill Extension SHORT External Cooling

Depth Gauges

Description

Graduations on 8, 10, 13, 15, 18, 20.
Graduations can be exposed on X-ray film.
Diameter : 1.3, 1.5, 1.9, 2.7, 3.0, 3.2, 3.4, 3.9mm.

[Specification]

Material : Stainless steel

Product Code 30072130 Product Depth Gauge 1.3

Product Code 30072150 Product Depth Gauge 1.5

Product Code 30072190 Product Depth Gauge 1.9

Product Code 30072390 Product Depth Gauge 3.9

Technika Repair Tap

Description

- For internal threads repair.
- Made of high corrosion resistant stainless steel compatible with autoclave.
- Long lasting DLC coating.
- Safe Handle

[Specification]

Material : Stainless steel (Tap and Handle)
 Surface Treatment : DLC coating (Tap)
 Thread Diameter x Pitch : M1.6 x 0.35 / M2.0 x 0.4
 Made in Japan

Product Code	30011110	Product	REPAIR TAP M1.6 with Handle
Product Code	30011130	Product	REPAIR TAP M2.0 with Handle
Product Code	30011210	Product	M1.6 Tap only
Product Code	30011230	Product	M2.0 Tap only
Product Code	30011300	Product	Handle for Repair Tap

● Rwpair Tap with Handle(Basic Set)

● Repair Tap

● Handle for Repair Tap

Compatible to both Tap

SCREW REMOVER

Description

- For removal of broken abutment screw.
- Made of high corrosion resistant stainless steel compatible with autoclave.
- Safe Handle

[Specification]

Material : Stainless steel (Remover and Handle)
 Length : S : 24mm / L : 32mm (For M1.6 and M2.0)
 Thread Diameter x Pitch : M1.6 x ϕ 1.1mm / M2.0 x ϕ 1.4mm

Product Code	30010910	Product	M1.6 L with Handle	Product Code	30011010	Product	M1.6 L Screw Remover only
Product Code	30010915	Product	M1.6 S with Handle	Product Code	30011015	Product	M1.6 S Screw Remover only
Product Code	30010930	Product	M2.0 L with Handle	Product Code	30011030	Product	M2.0 L Screw Remover only

Gingiva Gauge

Description

The first division shows 1mm when top of measuring block and needle are coincide. Wide of graduation is 1mm and pitch is 2mm, thus each graduation shows the gingival thickness of 2, 3, 4, 5, 6, 7mm. Put the measuring block in right angle to gingiva, then prick gingiva by light force until needle reaches to bone. Pull out carefully so that measuring block would not moves. Read the thickness at the back side of measuring block.

Product Code 30080013 Product Gingiva Gauge

- Can be measured the thickness of gingiva from 2mm to 7mm in increments of 1mm during implant operation.
- For a more exact and detailed measure. It is better to use micrometer caliper separately.

Bur Stands

Description

You can stand 6 burs.

[Specification]

Material : Stainless Steel
 Bur Stand 40(w70 x D40 x H15mm) Compliant bur length : Max 35mm
 Bur Stand 45(W70 x D45 x H15mm) Compliant bur length : Max 40mm

Product Code	30080010	Product	Bur Stand 40
Product Code	30080011	Product	Bur Stand 45

Lock Stand

Description

No falling off, burs keep stable.

[Specification]

Material : Stainless Steel , Autoclavable
 Lock Stand : w70 x D53 x H15mm, Bur/drill size : up to 45mm, ϕ 2.35mm

Product Code 30600500 Product Lock Stand

* Inside rubbers lock drills firmly

Vulcanite Burs

[Specification]
 Material : Stainless Steel
 Large and small types are available.
 Large : Maximum diameter is 6 mm.
 Small : Maximum diameter is 4.8 mm.

※ Straight hand piece type only.

Lip & Cheek Retractor

Features

To retractor cheeks and to have a better view.

[Specification]
 Material : Polycarbonate Set of 2pcs

Product Code 50570131 Product Lip & Cheek Retractor Set

Lip Expanders

Features

Superb anterior access. Available in an adult, child or assorted(adult / child)set.

- Soft, plastic frame.
- Comfortable for the patient.
- Provides excellent anterior access.

[Specification]
 Material : Polypropylene

Description

Available for picking up 0.01g.

[Specification]

Coak type Material : Stainless steel Size : 162mm

Product Code	06301010
Product	Cotton Plier

Tongue Guards & Saliva Ejector

Description

Three different sizes metal reflectors are changeable and they protect tongue from turbine.

[Specification]

Pipe : brass , chrome plated Others : Stainless steel Size : 138 x 80mm

Product Code	50050010
Product	Tongue Guards & Saliva Ejector

MOQ : 100pcs. Please contact us about the price every order.

Parallel Reflector

Features

Mirror with parallel lines.
 Autoclavable.

[Specification]

Coak type Material : Stainless steel
 Size : H 18 x W 48 mm, Thread Part M2.5 (P=0.45 L-5)

Product Code	50050100
Product	Parallel Reflector

MOQ : 100 pcs

pinlight2

Features

- The mirror and the light guide are detachable and autoclavable.
- The handle is IP X7 waterproof and capable of alcohol disinfection.
- Much brighter 90lm White LED Lighting used for detecting caries.
- Roder's HR FRONT mirror comes with size 4.

[Specification]

Light : 90LM, Cool white LED
 Mirror : HR FRONT coating, size 4
 Battery : Two AAA-size
 Waterproof Performance IPX7 JIS C 0920 (IEC 60529)
 Continuous lighting time : 90 min

Product Code	30080350
Product	pinlight2
Product Code	30080420
Product	Mirror holder, set of 4pcs.
Product Code	30080360
Product	Light guide
Product Code	30080370
Product	Replacement O ring, set of 3pcs.

Excavators

Features

special hollow octagon handle which enables very light weight as well as ideal balance. high cutting performance and long life.

[Specification]

Material : Stainless Steel Size : 165 mm x Handle : 5.8 mm

Product Code	50581100	Product	Excavators #19/20
Product Code	50581150	Product	Excavators #21/22

#19/20

#21/22

MOQ : 100 pcs

Wax Spatulas #7A

[Specification]

Material : Stainless Steel Size : 150 mm x Handle : 4.5 mm

Product Code	50581020	Product	Wax Spatulas #7A
--------------	----------	---------	------------------

MOQ : 100 pcs

Evans

[Specification]
Material : Spoon Stainless Steel, Handle Aluminum Size : 171 mm x Handle : 8 mm

Product Code 50581000 Product Evans

MOQ : 100 pcs

Hollenback #3

[Specification]
Material : Stainless Steel Size : 166 mm x Handle : 5.8 mm

Product Code 50581040 Product Hollenback #3

MOQ : 100 pcs

Plastic Filling Instruments, Woodson #1

[Specification]

History of DENTECH

In 1907, Dentech Corporation, a pioneering manufacturer in Dental Instruments, was founded in Yanaka, Tokyo by Kenjiro Kimura, and it was originally named as Kimura Kousakusho.

We manufactured the first Japan made dental burs.

After Second World War

In 1944, the first factory was destroyed due to Second World War. In 1947, after the war, we transferred our factory to Itabashi in Tokyo and reconstructed it. However, in 1954, the strongest ever typhoon unfortunately struck around the area and the factory collapsed again. In 1955, we rebuilt a new factory at the place nearby the destroyed factory to continue providing our products for the customers.

First Advancement Overseas

After Second World War, a lot of dentists came to Japan from the U.S. accompanying the occupation army and needed trustworthy dental instruments with high quality. Thus we were able to develop our products through the cooperation of them. In 1971, we launched to export our products overseas and our first overseas customer was in the United States.

Renamed as DENTECH

Kimura Kosakusho was renamed as Dentech Corporation in 1974. Since 1976 we have manufactured drills for implantology as the first implant drill manufacturer in Japan. Nowadays most Japanese implant makers adopt our drills.

The Current DENTECH

Today Dentech is well known as one of the companies which have the longest over 100 - year history in dental industry. KSK rubber dam instruments, implantation drills and burs as well as many unique products with Japan-made high quality are well supported by dentists and professionals all over the world.

Joint Performance with Japanese CRAFTSMANSHIP and Latest Machine Technologies

We possess CNC lathe, CNC Grinding machine, Heat treating machine, 3D CAD/CAM systems, and other various latest machines and equipments at our own factory in Japan. At the same time we are proud of the greatest technique by our craftsmen whose skill is unequaled with any others. We have an advantage in manufacturing extremely delicate dental/medical instruments using these two wheels which are identified by the machine automation and craftsmen's technique.

We have been developing, designing and manufacturing any kinds of dental and surgical instruments needed in clinical site around the world with outstanding quality for over a century.

It is a great honor for us that our products are highly respected all over the world. Our products would surely satisfy you.

Dentech has been assessed and certified as meeting the requirements of ISO 13485.

KSK Rubberdam system's products has verified for the European medical device regulation, UK regulation and USA regulation.
